

# Certificate IV (ACM40818) Farriery

## EXPRESSIONS OF INTEREST

### Nationally Accredited Units In this Course

The nationally recognised Certificate IV in Farriery gives students the capability to perform an individual horse's hoof care requirements. Ranging from a standard trim and/or shoeing to more complicated corrective measures.

- Handle horses safely
- Make standard shoes for a range of equines
- Shoe horses with various faults and defects from moderate to severe
- Welding using a forge
- Hoof care trimming and shoeing plans
- Handheld and power tools
- Organise and maintain finances for the micro business

A farrier is a specialist in equine hoof care, this occupation includes the trimming of hooves to balance the horse, improving the performance. The application of various types of shoes where necessary. A farrier combines some blacksmith's skills with some veterinarian's skills in equine anatomy to care for the horses' hooves
